PROFESSIONAL EXPERIENCE

Princess World Jewelers

St. Thomas, USVI; Juneau, Alaska; Skagway, Alaska

Part-Time Sales Associate and Analyst

September 2019-August 2022

- Analyzed data to establish weekly sales targets depending on daily customer volume (calculated by how many cruise ships were expected to dock in the respective ports)
- Assisted in inventory management and restocking to ensure product availability and documentation of product sold
- Utilized analytical skills to interpret market research and customer feedback, optimizing product placement i.e. showcase design
- Conducted product demonstrations and provided knowledgeable recommendations to customers, enhancing their shopping experience
- Assisted in the preparation of sales reports and presentations for management review, highlighting products that resulted in the most sales and actionable insights related to future inventory purchasing
- Adapted quickly to changing priorities and responsibilities in a fast-paced retail environment, consistently achieving goals and deadlines

Peerislands

Cayman Islands

Operations Intern (Remote)

June 2024-September 2024

- Conduct comprehensive audits of company SaaS subscriptions, assess usage, identify redundancies, and recommend cost-saving measures by consolidating tools and negotiating contracts
- Create detailed data migration strategies to ensure seamless transitions between systems. Oversee pilot and full-scale migrations, minimizing disruption and ensuring data integrity
- Manage the process of terminating SaaS licenses, including contract review, vendor communication, and responsibility transfer to alternative solutions
- Work effectively within cross-functional teams, leveraging collaborative tools to share information, solve problems, and drive project success
- Define project scopes and objectives, develop detailed plans, track progress, and manage risks to deliver projects on time and within budget
- Employ SharePoint for document management and team collaboration, use Word for comprehensive documentation and reporting, and Excel for data analysis and project tracking
- Integrate systems, managing and implementing seamless connections between various software platforms to optimize data flow and automate processes through APIs or data integration tools
